

4K UHD PRO CAMCORDER

4K QUALITY, HIGH SPEED, IMPRESSIVE PORTABILITY

The powerful, compact XA45 and XA40 Professional Camcorders deliver the quality, speed and connectivity to drive a 24-hour news workflow. Featuring 4K UHD CMOS Pro Image Sensors, DIGIC DV 6 Image Processors and a 20x High Definition Optical Zoom Lens, they capture high-quality video for Electronic News Gathering (ENG), journalism, documentaries and more.

4K UHD and Full HD Recording

The high-sensitivity 1/2.3-inch, 8.29 Megapixel 4K UHD CMOS Pro Image Sensor delivers sharp and vivid 4K UHD and Full HD recording through an excellent signal-to-noise ratio.

Full HD Over Sampling Recording

Over Sampling HD Processing enables Full HD recording by utilizing the outstanding 4K UHD CMOS Sensor, delivering brilliant image quality for virtually any news-gathering application.

Genuine Canon 20x High Definition Optical Zoom Lens

Featuring a versatile, 35mm equivalent of 29.3–601mm zoom range, the lens helps to capture recordings near and far. Its 8-bladed Circular Aperture design enhances image quality, creating smooth and natural out-of-focus areas.

Compact and Lightweight Design

Weighing less than three pounds, the XA45 and XA40 are ideal for high-action shoots that require speed and mobility. Removing the detachable handle further allows for compact, convenient storage when traveling.

Relay and Simultaneous Recording

Relay Recording automatically switches video recording from one SD memory card to the other when the first memory card becomes full. Plus, the DIGIC DV 6 Image Processor and dual SD card slots enable Simultaneous Recording of 4K UHD and Full HD to a web-ready MP4 format, at different bit rates.

3.0-inch Touch Panel LCD and 0.24-inch Tiltable Electronic Viewfinder

The 460,000-dot LCD display provides vivid colors, high contrast and faithful color reproduction. For low-angle shooting, the electronic viewfinder can tilt up to 45°, all while providing 100% field of view and 1.56 million dots of resolution.
