The **FUZE SPOT™** is an automated LED spot fixture designed for theater, television and a wide array of other precision lighting applications. The 92 CRI engine utilizes a 5-color homogenized LED array consisting of Red, Green, Blue, Mint, and Amber sources. The carefully tuned LEDs ensures accurate color reproduction while delivering a powerful output of over 10,000 lumens. Virtual color temperature, Magenta / Green adjustment plus CMY emulation provide the designer with immediate access to the impressive LED color array.

The FUZE SPOT is designed for any application where an automated ellipsoidal fixture with outstanding and impactful color range and quality is required. Dual rotating gobo wheels, animation wheel, frost, prism and iris round out its comprehensive feature set in a compact, quiet and lightweight fixture.
