

The Perfect Professional Recording & Duplicating Solution

Thousands of business organizations and enterprises both from the public and private sectors use CDs and DVDs as a primary mean to distribute important content, and with good reason: CDs and DVDs are inexpensive to produce and user-friendly for even the least tech-savvy viewers and listeners-whether they're at home, in the car or at the office.

Whenever you create a new composition, the first thing that comes your mind is how to save, secure and retrieve it after a longer period, therefore, you always seek a reliable storage device, which ensures high quality and unparalleled performance.now, you no longer have to choose between the best sound quality and the best digital preservation when you select FalconMedia Dupli Line

FalconMedia Dupli Line has been specially designed to suit professional media duplication needs. It was tested by all the major drive makers to ensure full compatibility across the range of duplication and replication systems.

FalconMedia Dupli Line is an ideal solution for

- Duplicators
- Preserving precious memories by archiving weddings, holidays, and kids photos and videos
- Training programs on DVD to avoid the unreliability of wireless/ internet connections
