All Earset, Headset and Lavalier microphones are packaged with four adapters for use with most popular wireless transmitters.

DYNAMIC MICROPHONES

Samson dynamic microphones are extremely durable and ideal for capturing high volume signals, like the live vocal and instrumental performances of a choir or band. The **R21 3-Pack** offers three dynamic mics, each with its own mic clip, in a single convenient carry case. The **Q8x** is Samson's flagship dynamic mic, faithfully reproducing a wide audio range with exceptional mid-range clarity that any soloist would embrace.

CM20P (SAMPM20)
Gooseneck Podium Mic

Message Delivered

Samson offers a solid microphone selection for standing at the pulpit or rising above the choir. The unobtrusive **CM12C** overhead mic features a compact condenser design that excels at capturing a live choir. At the lectern, the **CM20P** and **CM15P** provide exceptional clarity, reduced foreground noise and minimized feedback. A dual gooseneck design allows instant repositioning for any presenter, and a switchable low frequency filter cuts down on rumble and podium surface noise. The weighted **CMB1** base eliminates the need to modify the lectern, while offering convenient push-button talk or mute operation.

Portable PAs

With events often going on in many different rooms at once, every house of worship can benefit from having one or more portable sound systems. Samson's Portable PA systems provide ideal all-in-one solutions for both spoken word and live music applications. And they're easy to use; simply connect an audio source such as a microphone, instrument or smartphone and turn up the volume to ensure that your message comes through loud and clear.
